Subject: Re: UPDATE: Homeless Encampments @ Carlos Tamarind STILL No End in Sight?

Now they're blocking both half of the street and the sidewalk.... Id deal with it but I got somewhere to be. if it isn't one of us getting hurt one of them is going to get hurt traffic flows through this neighborhood so damn fast.

Good morning all,

Please remember to stay in contact with Councilman Mitch O'Farrell's Office about the parking restrictions and funding for a beautification project. In the meantime, we will continue to advise and enforce where we can.

As for efforts to clean yourselves, it has a positive effect. The Church of Scientology has a clean-up effort once a month. Some of the homeless appreciate the social engagement and willingly participate. Please if you decide to undertake this...be extremely careful. There are needles and human waste that are very possibly infectious. The clean-up operations supervised by Bureau of Sanitation have safeguards in both training and supplies to address this hazard.
